Public administration: a manual / I.A. Kaliev, M.A. Altybasarova. – Almaty: Daryn, 2023. – 202 s.

ISBN 978-601-7377-20-5

The manual discusses the concept, main characteristics, functions, methods, features of public administration, as well as modern problems of public administration. The analysis of the main modern technologies of public administration is presented.

The manual also presents modern basic scientific, theoretical and applied aspects of public administration, its goals, principles, legal foundations, resource provision and mechanisms of functioning, taking into account the peculiarities of modern Kazakhstan and international practice. The list of tasks for seminars and independent work of students is given, tasks are presented in a test form.

The training material is intended for students and undergraduates in the fields of "Political Science", "State and Local Government", as well as for anyone interested in problems of public administration.

The manual is recommended to university teachers, consultants of educational and research centers working in the field of state and local government, as well as practical workers for use in professional activities.

It is of interest to teachers, civil servants, as well as a wide range of readers.
