6. Agenda of public hearings: The discussion on the assessment of environmental impact (EIA) for the project entitled “Re-equipment of the building of the former workshop for the production of curbstone, paving slabs and hollow bricks”

Regulations:

- 1) Open the public consultation;
- 2) Election of Chairman, Secretary of the consultations;
- 3) Report on the project “Re-equipment of the building of the former workshop for the production of curbstone, paving slabs and hollow bricks” (Bogomolov A.V., Varlamova I. L.)
- 4) Discussion of project materials
- 5) Closure of public consultation

The presentation time is 15 minutes.

Discussion is 15 minutes.

7. Speakers:

Esmagambetov D.B. – acting Deputy head of the Department of subsoil management of the State institution “Management of subsoil use, environment and water resources of Pavlodar region” welcomed the participants of the public hearings, announced the agenda, regulations (presentation 15 min, discussion 15 minutes), presented the staff of LLP “Ecostroy NII-PV”.

He also suggested appointing a chairman and secretary of public hearings. By a general vote Bogomolov A.V. was elected as the chairman of the hearings, D.K. Maussymbayeva - the secretary.

Technical Director of LLP “EcostroyNII-PV” Bogomolov A.V. - Chairman of public hearings, welcomed the participants, gave opening remarks and announced the opening of public hearings. Read a report on the project “Re-equipment of the building of the former workshop for the production of curbstone, paving slabs and hollow bricks” (the report attached, Appendix 2).

Environmental engineer of LLP “Avangard”Varlamova I. L. with the plan of management for environmental protection project “Re-equipment of the building of the former workshop for the production of curbstone, paving slabs and hollow bricks” (the report attached, Appendix 2).

Upon completion of the report, the chairman of the public hearings Bogomolov A.V. gave the floor to the audience for questions and comments on the project of environmental impact assessment.

8. Questions, suggestions and comments from members of the public:

Question №1 Esmagambetov D.B., acting Deputy head of the Department of subsoil management of the State institution “Management of subsoil use, environment and water resources of Pavlodar region”:

What will be the amount of investment for the construction of the entire facility?

Question №2 Kulbayev A.B. resident of Pavlodar

Will the planned production have sources of radiation pollution?

Question №3 Abisheva G.E. engineer of LLP KazStroy Project-PV

Is it planned to remove the fertile soil when concreting the shopfloor?

9. Speaker's answer to questions, suggestions and comments:

The answer to question №1 Bogomolov A.V.:

Construction of the object is not provided, since the building already exists. In fact, the building has not been used for several years, so at present, medium, in some places, cosmetic repairs to restore its suitability for operation is carried out.

Answer to question №2 Bogomolov A.V.:

In the area natural and man-made sources of radiation contamination are absent. In addition, the reconstruction of the former workshop does not involve the installation of equipment that can be a source of radiation.

Changes in physical impact from the operation of the facility, in relation to the existing situation, are not expected.

Answer to question №3: Bogomolov AV

The land has been developed earlier. Measures to remove the soil-fertile layer are not planned.

10. Main conclusions from the discussion:

Having heard and discussed the speeches, the participants of the public hearings came to the following conclusions:

1. To consider the hearings on the compliance with the project on environmental impact assessment, in order to obtain an environmental expert opinion has been accomplished.

2. Within 5 working days the protocol will be prepared and published on the Internet resource of LLP “EcostroyNII-PV”.

3. Comments and proposals will be received within 7 calendar days by e-mail of LLP “EcostroyNII-PV”, and then the protocol will be submitted to the PMU ISCB.

4. To approve the materials on the environmental impact assessment project. To recognize the working project “Re-equipment of the building of the former workshop for the production of curbstone, paving slabs and hollow bricks” corresponding to the requirements of the current legislation of the Republic of Kazakhstan.

5. Based on the results of the voting, public hearings are considered valid.

Chairman of public hearings: _____ **A.V. Bogomolov**

Secretary of public hearings: _____ **D.K. Maussymbayeva**
